

SILAS M. FALDE

1300 S University Ave ◇ 503-A ◇ Ann Arbor MI, 48104
(517) 539-1532 ◇ sfalde@umich.edu

EDUCATION

University of Michigan, Ann Arbor

Sophomore Pursuing B.S.E. in Data Science

August 2023 - Present

GPA - 3.242

- Programming (EECS 183, 280): Developed fundamental programming skills and concepts as applied to C++. Gained experience working as both a programming team member and leader with many projects including text comprehension, image resizing, and a terminal-based game.
- Data Structures (EECS 280, 281): Studied data structure concepts including linked lists, maps, inheritance, functors, iterators, polymorphism, and recursion, as applied to C++. Worked both individually and on a team for many projects including matrix implementations, a euchre game, and a machine learning social media post classifier.
- Linear Algebra (MATH 214): Explored linear algebra concepts including linear equations, linear transformations, subspaces, and orthogonality. Applied concepts to linear programming, error-correcting codes, and 3D computer graphical computation.
- Discrete Mathematics (EECS 203): Studied mathematical concepts as they relate to computation including algorithms, counting, probability, induction, recursion, and logic.

ACTIVITIES

Michigan Data Science Team (MDST)

Project Team Member

August 2024 - Present

- Applied programming skills and concepts to Python for data collection, cleaning, and analysis

EMPLOYMENT

STRENGTHS

Programming	C++, Python, LaTeX, SQLite, R Studio
Python	Pandas, NumPy, Matplotlib, Sklearn
Software	Microsoft Office, Google Suite
